Serial No. Memo note no: 250/A 9/5-4-20

The area of the accommodation provided for the Comptroller's Office, State Huzur Treasury and State Life Insurance office is sufficient. The distribution of the rooms as shown in the Memo is not, however, quite suitable. The accompanying memo shows how the general arrangement of the rooms should be. As regards the site, the best would appear to be the one opposite the Government Central Press. If this cannot for any reason be utlised, the one opposite the General Post Office seems to be preferable.

As regards funds for the building, it seems to be desirable to treat the work as an urgent one and set apart a lakh every year from the sanctioned grants for civil works on account of this building. The accommodation now allotted in this building to the Comptroller's Office, the Treasury and the State Huzur Treasury are insufficient and work is seriously handicapped for want of proper accommodation. If the Government think that the work cannot be taken up for execution till some time more it is necessary to consider the question of giving the new Public Offices now under construction accommodating this office and the Treasury.

1. Comptroller's Office

The area provided for this office is sufficient for the present. The rooms of Gazetted Officers may be so arranged as to be near the Sections under their charge as they are required to visit the Sections at frequent intervals. The Book Section may be constructed to be near the Comptroller's room.

About 4 additional rooms for Gazetted Officers will be also required as four ~~Public Works~~ Probationary Commissioners Assistant ~~Comptrollers~~ will be under training in this Department every year.

2. State Huzur Treasury & Stamp Superintendent's Office

State Huzur Treasury - The place set apart for Accountant (9) is far away from the place of transaction (No. 20). The Cash Section ~~in~~ (Shroffs) and the accountants should be accomodated side by side. Between the Treasury ~~(~~Cash Section and Accounts Branch~~)~~ provision is made for accommodation of the Stamp Superintendent's Office. This is inconvenient to both. A re-arrangement is necessary.

The Stamp Superintendent's Office - The Superintendent's Office and the counter stamping room (No.14, 15, 16, 17 & 18) are separated from water marked paper Stock Room (No.29) by a huge block (21, 22 & 23). This renders the guarding of the stock room No.29 and counting and supervising inconvenient. The passage ~~between~~ behind the Stock Room (29) is blocked

by the projection of Room No.30). All these should be located in one block.

Insurance Office. The accommodation provided for the Insurance Office is sufficient.
